SKILLS

Languages: C++, Python, C, JavaScript
Technical: HTML, Tailwind CSS, Node.js, TypeScript, React, Flask, RestAPI
ML: Flask, NumPy, Matplotlib, PyTorch, Gunicorn
Tools/Platforms: MongoDB, MS Word, MySQL, Gamma,
Soft Skills: Problem-Solving, Team Player, Adaptability

PROJECTS

- UNO MultiplayerGame** | TypeScript, React, Node.js, Prisma, SQLite, WebSockets Aug' 26
- Developed a real-time multiplayer UNO web application enabling multiple players to join game rooms and play through synchronized game states.
 - Implemented game logic, turn management, card actions, player handling, and real-time communication between clients using WebSockets.
 - Integrated Prisma ORM with SQLite for structured game and player data management, while building a responsive frontend using React and TypeScript.
- Indian Gender Classifier** | Python, PyTorch, BiLSTM, Machine Learning Jul' 26
- Built a character-level BiLSTM machine learning model to predict gender from Indian names using a cleaned dataset of **57,563 names**.
 - Performed data preprocessing, character encoding, vocabulary construction, dataset splitting, and removal of duplicates and conflicting records to improve data quality.
 - Achieved **91.36% validation accuracy** with a Bidirectional LSTM model using character embeddings, with balanced precision and recall across male and female classifications.
- CalculatorWeb Application** | React, TypeScript, HTML, CSS May' 26
- Developed an interactive calculator web application using React and TypeScript with a clean and responsive user interface.
 - Implemented arithmetic operations, input handling, calculation logic, and dynamic state management for accurate real-time results.
 - Structured the application using reusable React components and TypeScript for maintainable, type-safe frontend development.

TRAINING

- IBM SkillsBuild Academic Internship – Data Analytics with AI** Aug'26 - Nov'26
- Data Analytics & Artificial Intelligence
- Applied data analytics concepts to understand, preprocess, and interpret datasets for extracting meaningful insights and supporting data-driven decision-making.
 - Explored Artificial Intelligence and Machine Learning concepts through hands-on learning, developing an understanding of how AI techniques can be applied to real-world problems.
 - Worked with data analysis and visualization techniques to identify patterns, communicate insights effectively, and strengthen practical skills in analytics and AI.

CERTIFICATES

- Oracle OCI AI Foundations Associate | Oracle Jun' 26
- Oracle AI Database Foundations Associate | Oracle Jul' 26
- AWS Technical Essentials | AWS Apr' 26
- AWS Cloud Practitioner Essentials | AWS Mar' 26

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology Aug' 25 – Present
Computer Science and Engineering; CGPA: 8.00
- St. Michael's Academy** Bettiah, Bihar
Intermediate Mar' 24 – May' 25
PCM; Percentage: 75%
- St. Xavier's Higher Secondary School** Bettiah, Bihar
Matriculation Mar' 22 – May' 23
Percentage: 84%
